-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/15/05 has been entered.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-19 and 33-52 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brumlik 3,922,455. The reference discloses the invention substantially as claimed, namely a oriented thermoplastic strand having a face with hook elements, i.e. nibs, extending therefrom at an angle with the claimed range; see Figures 1 and 18, column 3, lines 3-7, column 5, lines 42-51, column 8, lines 18-25 and column 6, lines 41-46. The nibs may be attached to the filament without the aid of adhesive; see column 5, lines 52-55. However, it does not disclose the claimed materials use to make the hook strand, the density of the hooks or the shape of the

Art Unit: 1772

hooks and strand. The term "extruded" in claims 1 and 33 is a process limitation which does not add any structurally distinguishing features to the final article. It would have been obvious to one of ordinary skill in the art to form the nibs from the same olefin as the linear element in the article of the reference depending on the desired structural and chemical properties for a particular end use.

It would also have been obvious to one of ordinary skill in the art to vary the shape and materials used to form the hooks and strand of the article in the reference in order to provide the desired structural properties for a particular end use. It would also have been obvious to one of ordinary skill in the art to adjust the density of the hooks on the strand in order to provide the desired gripping power for a particular end use.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Thomas whose telephone number is 571-272-1502. The examiner can normally be reached on 6:30-4:00 M-THUR.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on 571-272-1498. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
